systems that are designed specifically to resist these harsh cleaning compounds that are typically used in these areas. Dur-A-Flex has the right solution to fit your specific needs. When it comes to your floor, one size does not fit them all.

Dur-A-Flex systems are designed to meet the demands that are unique to each area. All Dur-A-Flex products meet or exceed USDA, FDA and OSHA requirements. The systems are also available in textured finishes that provide slip resistance and a sense of security for creatures large and small. Trainers and technicians agree--for animal habitat flooring that performs and protects, a Dur-A-Flex floor is the only choice.

Contact us for information about performing site surveys or evaluations. We are here to answer your questions and help you find solutions for your floor coating needs.
